> Radisson Blu Hua Hin Hotel

The Radisson Blu Hua Hin hotel is the latest hotel from leading chain of Radisson group. It located in Hua Hin, one of a top tourist destination in Thailand. With total of 118 Guestrooms in the hotel and 100% satisfaction guarantee hotel policy, it leave no room for any error in service and building itself.

Located in Southern Part of Thailand, Hua Hin is the tourist city that connected to beautiful beach near Gulf of Thailand. The long raining season and strong UV environment are the main reasons that causing leakage for most of building in that area. In order to prevent the hotel building from leakage on the rooftop. LANKO 451 was used to protect the whole rooftop of the hotel. It can withstand the UV and flexibility to cover the micro cracking of the concrete rooftop and preventing the leakage, helping the hotel achieving the satisfaction hotel guarantee policy.
