

Waterproofing Systems and Technical Solutions

Butantã Mall - Sao Paulo

Butantã Mall is the first Carrefour Group Shopping in Brazil. Inaugurated in 1994, has as its main anchor the Hypermarket.

The project was based on the reform of the floor of the living area, corridors and food court, in a short time.

Quartzobrás Concreto D-Flash, a fast drying self leveling mortar with gravel aggregates was used on the floor recovery, releasing the area for tiling 2 hours later, reducing the execution time.
