> Galaxy Business Park

Client observed leakage from joints of existing ploy-carbonate roof. It is a common occurrence in building construction with over five years in existence as no major provision for waterproofing was made in those times.

Solution system designed by LANKO 162 FLOWPRIME and K10 SOVACRYL for desired results.

APPLIED PRODUCTS

- LANKO AUTONIVELANTE 133 FOR FLOOR SELF-LEVELING BEFORE VINYL SETTING
- PRIMER APPLICATION WITH LANKO 162 FLOWPRIME ROOF
- WATERPROOFING WITH K10 SOVACRYL
