> Arena 92 Stadium

The 92 Arena is a stadium and concert hall situated in Nanterre close to Paris whose opening is scheduled for 2016. This stadium will be the resident stadium for one Paris Professional Rugby Team: Racing Metro 92.

But Arena 92 stadium is also modular and multi-purpose building that can accommodate 32,000 spectators in rugby stadium mode and 10,000 to 40,000 spectators in fashion concert hall. On concert hall configuration, the Arena 92 will be the largest concert hall in France. The stadium will be equipped with a screen among the largest in the world with an area of 2,000 m².

The ParexGroup Team has supplied solutions to refill the entrance of the benches. The refill thickness was variable between 10 and 60 mm on a concrete substrate.
