> Shreeji Group - Sky Garden

When Shreeji Group – a major developer group of Delhi and NCR, were looking for waterproofing solution provider for their premium project named “SKY GARDEN”, they entrusted the job to PAREX India and its associated applicator.

PAREX India along with its approved applicator were invited for site visit and after understanding client’s requirement, a solution involving K11 FLEX was proposed for their podium waterproofing work. Initial work was carried out using LANKO 731 to repair all the joint in the podium and then by coating the surface with primer LANKO 753. After treating the surface, two coats of K11 FLEX were applied on it. The total area of application being 35,000 sq.mt. with 1.5 kg/sq.mt. usage of K11 FLEX.

The work is in progress and such references will help PAREX India to achieve more such quality projects in the years to come.
