

> Facade Protection and Decoration

> AllHome Kawit Cavite

ALLVALUE, the Villar Group’s holding company for its retail companies, made its first foray into the retail business via AllHome, a one-stop shop for home builders and owners. Following its rapid expansion and success in Luzon, the group grew its retail portfolio to include department stores, supermarkets, and food establishments.

Its latest branch in Kawit Cavite required the application of our PAREX EIFS (Exterior Insulation Finishing System). The project made use of a combination of full term and half term system that made use of PAREX 121 DRY and PAREX 534 to create their signature textured facade finish. A total of 700 sqm of EIFS was used for the said AllHome branch.
