> Southwoods Mall

Southwoods Mall is a shopping mall built by Megaworld Corporation and managed by Megaworld Lifestyle Malls. It is located in the 561-hectare Southwoods City township in the borders of Carmona, Cavite and Biñan, Laguna.

It is a 3 level shopping mall that features a 24-hour Food Hall, 4 cinemas, department store, supermarket, hardware store, toy store, and its own transport hub. The Roof Deck Garden at the 3rd level offers open spaces and al fresco areas for dining surrounded by gardens.

This project required a half term EIFS system using PAREX 121 Wet and PAREX 533 to create the colorful and very modern facade design.
